## SUMMARY

I have over 2 years of experience in application development using technologies such as PHP, JavaScript, and RESTful APIs, as well as databases like MySQL, PostgreSQL, and MS SQL Server. I'm also proficient in frameworks such as Laravel, CodeIgniter 4, and Express.js. Additionally, I have experience in providing technical support for user issues and handling application deployment.

## WORK EXPERIENCE

### IT Application Support, Mandaya Royal Hospital Puri

Mar 2024 - Mar 2025

- Supported HIS system EMR Origin Integrated Studio (coding, database administration).
- Created and updated digital forms for hospital operational needs.
- Developed internal applications based on user requirements, utilizing existing databases. Integrated these applications with the HIS database, Allianz Debtor system, and doctor fee management system using Laravel, Express, and MSSQL Server.
- Deployed applications on Windows server (Nginx, Xampp, Laragon).

### Full Stack Developer, PT. Aneka Daisuib Jaya

Jul 2023 - Feb 2024

- Designed E-Commerce system and database architecture.
- Created features such as wishlist, cart, checkout, product variants, product purchasing, and admin dashboard, along with REST APIs for front-end use.
- Integrated Payment Gateway (Midtrans Snap UI & Core UI) and GoSend API for transaction processing, including UAT with GoSend.
- Developed dynamic Web View application using Kotlin.
- Updated dependencies and resolved update conflicts.
- Reviewed team's pull requests for code quality and consistency.

### IT Programmer, PT. Skyblue Network Technology

Jul 2022 - Jul 2023

- Designed system flow and database architecture.
- Developed applications according to specifications.
- Reviewed and implemented ticket changes following best practices.
- Deployed applications to production environment.
- Resolved issues with optimal solutions.

### IT Intern, Klink Rumah Sehat Bunda

Apr 2022 - Jul 2022

- Designed an inventory application using Express.js and React.js.
- Integrated OAuth 2.0 authentication system into the application.
- Developed custom input forms as per user requirements.

### IT Intern, PT. Firman Indonesia

Agu 2016 - Sep 2016

- Entered and updated product specifications data in e-commerce web design using SQLite.
- Edited product image assets using Photoshop to match web design.

## KEY SKILLS

- **Programming & Frameworks:** PHP, JavaScript
- **Version Control:** Git, Git Flow, GitHub
- **Databases:** MySQLi, PostgreSQL, MS SQL
- **Frameworks:** Laravel, CodeIgniter 4, Express.js
- **Web Servers & Tools:** Nginx, Xampp, Laragon
- **Operating Systems:** VPS (Windows & Linux)

## LANGUAGE

- **Indonesian:** Fluent
- **English:** Basic reading and writing skills

## CERTIFICATIONS

- **Mastering SQL Query with SQL Server** — Udemy
- **JavaScript OOP: Mastering Modern OOP** — Udemy
- **PHP Laravel: Build Food Ordering Ecommerce Store** — Udemy
- **SQL: From Zero to Hero - Unleash the Data Superpowers Within** — Udemy
- **PostgreSQL Bootcamp: Complete Beginner to Advanced** — Udemy

## EDUCATION

Indraprasta PGRI University — Bachelor of Computer Science

2018-2022

Faculty of Informatics, Computer Science and Technology (GPA: 3.55)

---

## PROJECTS

- **ERDkit** — Sep 2024: A repository featuring sample database examples, including detailed explanations, ERD design, and SQL queries. <https://github.com/kikuKeii/ERDkit>
- **Ssayomart E-Commerce** — Des 2023: a web-based e-commerce application that allows users to purchase foodstuffs, snacks, drinks, and Korean sauces directly without a third party as a seller. This web-based e-commerce application was created using the Codeigniter 4 framework and the PHP programming language. The android version was made with Kotlin. <https://ssayomart.com>
- **Ip Saya** — Mar 2023: A website for checking IP addresses and network details, including geolocation data, developed using Next.js. <https://ipsaya.vercel.app>
- **BC Street Kit** — Nov 2022: is a minimalist starter kit designed to jumpstart Express.js-based projects. The kit provides a basic structure for building applications. <https://github.com/kikuKeii/BC-street-kit>
